About Me

I am eager to begin my career as a web developer. I have a strong foundation in programming languages such as HTML, CSS, and JavaScript. I am well-versed in web development in React framework. Additionally, I am familiar with Agile development methodologies and have experience working with Git for version control. I am excited about the opportunity to bring my technical skills and passion for creating user-friendly websites to a dynamic organization.

Education

2018-Continue

Aksaray University

English Language and Literature

As a web developer currently studying English language and literature, I bring a unique perspective to the field of web development. My background in literature and language has given me a strong understanding of effective communication and storytelling, which I apply to my work in creating engaging and user-friendly websites.
